Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.20 million
Project Cost (USD)	\$ 0.20 million

Project Description

According to the IADB, the overall objective of this TC is to support the GoH in the timely execution of rural electrification infrastructure, and in achieving the expected results and impacts. The specific objectives are to support the GoH in the execution of the program "Improving Electricity Access in Haiti" (4900/GR-HA - "the Program") and related operations (GRT/TC-19125-HA, GRT/SX-21245-HA and GRT/LE-19861-HA).

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

No project contacts provided at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
