Project Description

This TC aims at providing technical and management support to the 4 operations that will be active in 2026 under the Haiti's education portfolio. The costs associated with the recruitment of national and international experts (consultancies), specialized firms (financial management and external communications services), and the deployment of supervision activities (travel, logistics, materials, others) are expected to be covered by this TC. By reinforcing the team and the means of efficiently managing the multiple and cross-cutting interventions that compose the 4 operations in place, the TC will enable the IDB staff on the ground to deliver high quality results, while ensuring compliance with the Bank's standards and regulations, as well as contributing to the strengthening of the Ministry of National Education and Professional Training's Executing Unity (MENFP-UCP), as a result of an agile and outcome-driven supervision.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
