Project Description

According to the IADB, this TC aims to strengthen fiduciary systems in Haiti by improving public procurement capacity in targeted execution units and supporting the development of a harmonized national accounting curriculum aligned with international standards and adapted to the Haitian context. Building on previous Bank support, the TC will address operational weaknesses identified during procurement implementation and supervision while also supporting the medium-term strengthening of accounting education and professional capacity. Through these two complementary components, the TC will contribute to stronger fiduciary performance, greater accountability, and more effective use of public and development resources

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
