Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.28 million
Project Cost (USD)	\$ 0.28 million

Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to implement an experimental impact evaluation to estimate the effects of the "Reach Up and Learn" (RUL) home-visiting program on child development outcomes, caregiving practices, and the quality of the home environment among vulnerable households in Haiti. The evaluation will focus on beneficiary children and their caregivers in the South-East and North-East regions of the country.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
