IADB-HO-G1242

Improving productive forest coverage under agroforestry systems in the Miskito,

Project Description

From the IDB: "The objective of the operation is to improve the productive forest under agroforestry systems in the Miskito, Pech , Tawahkas and Tolupanes communities. The selected areas are the departments of Francisco Morazan Yoro , Olancho and Gracias a Dios , municipalities, which have been prioritized by the vulnerability of indigenous and Afro - Honduran peoples and climate change."

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
