Rural Electrification Program in Isolated Areas

Early Warning System

Rural Electrification Program in Isolated Areas

IADB-HO-G1247

Quick Facts

Countries	Honduras
Specific Location	Brus Laguna, Guanaja, El Corpus, Concepción de María
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	A
Borrower	Empresa Nacional de Energía Eléctrica (ENEE)
Sectors	Energy
Investment Type(s)	Grant
Grant Amount (USD)	$ 6.40 million

Project Description

The overall objective of the program is to support the development of the rural areas of the country, mainly coastal and island, through the implementation of decentralized and micro-grid renewable energy generation projects. The specific objectives are: (i) to provide access to electricity to those populations that do not have the service; (Ii) to reduce the cost of electricity to those populations that have electricity supply based on micro-grids with diesel generation; and (iii) to develop institutional capacity of the sector for the design, construction, operation and maintenance of these projects.

IDB: ENERGY-RURAL ELECTRIFICATION

The overall objective of the program is to support the development of the rural areas of the country, mainly coastal and island, through the implementation of decentralized and micro-grid renewable energy generation projects. The specific objectives are: (i) to provide access to electricity to those populations that do not have the service; (Ii) to reduce the cost of electricity to those populations that have electricity supply based on micro-grids with diesel generation; and (iii) to develop institutional capacity of the sector for the design, construction, operation and maintenance of these projects.

IDB is also funding ENEE through Project 3103/BL-HO (Connection to MER) and 3435/BL-HO (Rio Lindo Hydro Complex).

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
