Investment Amount (USD)	$ 1.00 million
Project Cost (USD)	$ 2.04 million

Boosting the Competitiveness of Small Forest Producers and Communities in Honduras

Project Description

This project focuses on the introduction of new business models based on integrated and diversified use of forest resources (timber and non-timber) to increase productivity and production quality. It also focuses on the assurance of environmental sustainability of forests through a clear system of incentives for the management and conservation of forest resources. This includes product certification, improvement of capacities of agroforestry cooperatives, access to finance and working capital for businesses.

Investment Description

- Inter-American Development Bank (IADB)

The IADB has approved a loan of US$1,000,000 to this project. The total project cost is US$2,040,930, of which country counterpart financing accounts for US$1,040,930.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
