### Project Description

This Program will promote the digital transformation of government citizen services and strengthen the capacity of SME and start-ups to participate in the digital economy. To achieve this, the program will: (i) improve government services by the implementation of e-government solutions for citizen services; (ii) implement a digital identity program; (iii) broadband connectivity infrastructure; and (iv) promote a digital ecosystem for employment and investments in the digital economy by strengthening the capacity of SME's and start-ups and promoting greater levels of human capital specialized in creative and digital industries.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
