<b>Voting Date</b>	2019-10-16
<b>Borrower</b>	Government of Honduras
<b>Sectors</b>	Water and Sanitation
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 30.00 million
<b>Project Cost (USD)</b>	\$ 60.00 million

### Project Description

The objective of this programmatic series is to help increase access and improve the quality of water and sanitation services in the Central District through a process of reforms that permit decentralization of those services to the municipal level, thereby enhancing sector governance and management in a context of climate change and with a view to achieving water security. The objective of this first operation is to contribute to the design and enactment of legal and sector instruments. The specific objectives are: (i) to promote operational and management development so as to increase the efficiency of water and sanitation services provided by the Municipal Water and Sanitation Unit (UMAPS); (ii) to help increase the financial sustainability of services provided by UMAPS; (iii) to strengthen UMAPS planning; and (iv) to strengthen the sector framework through better governance, regulation, and management of resources in a context of climate change, and improve service delivery to better meet demand. This is the first loan in a series of two consecutive single-tranche operations that are technically related to one another but independently financed as programmatic policy-based loans.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
