Project Cost (USD)	\$ 60.00 million

IADB-HO-L1207

Central District Water and Sanitation Services Reform Program

Project Description

The objective of this programmatic series is to help increase access and improve the quality of water and sanitation services in the Central District through a process of reforms that permit decentralization of those services to the municipal level, thereby enhancing sector governance and management in a context of climate change and with a view to achieving water security. The objective of this first operation is to contribute to the design and enactment of legal and sector instruments. The specific objectives are: (i) to promote operational and management development so as to increase the efficiency of water and sanitation services provided by the Municipal Water and Sanitation Unit (UMAPS); (ii) to help increase the financial sustainability of services provided by UMAPS; (iii) to strengthen UMAPS planning; and (iv) to strengthen the sector framework though better governance, regulation, and management of resources in a context of climate change, and improve service delivery to better meet demand. This is the first loan in a series of two consecutive single-tranche operations that are technically related to one another but independently financed as programmatic policy-based loans.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
