# Comprehensive modernization, professionalization and digitization of the services of the National Police of Honduras

## Project Description

Contribute to the institutional consolidation of citizen security management in Honduras and the improvement of citizen security in the country through the implementation of a master plan for police modernization, which will include: (i) the training and management of police human resources under the 2030 perspective; (ii) technological modernization and digitization of the police service; and (iii) expansion of the coverage of citizen-oriented police services, through the modernization of infrastructure and equipment at the national level.

**Investment Description**

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
