

 Early Warning System

IADB-HO-L1238

Emergency Program in Response to Tropical Storm Julia

Quick Facts

Countries	Honduras
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Honduras
Sectors	Infrastructure, Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 20.00 million
Project Cost (USD)	\$ 20.00 million

Project Description

According to the Bank's website, the specific objective of the program is aimed at restoring part of the road infrastructure, flood protection infrastructure, and other social infrastructure affected by Tropical Storm Julia. The achievement of this objective will contribute to the general objective of supporting the transition process of the population affected by Tropical Storm Julia towards the recovery of their regular social and economic activities, through the restoration of the level of access to the provision of basic public services.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
