---

### **Project Description**

According to the Bank's website, the specific objective of the program is aimed at restoring part of the road infrastructure, flood protection infrastructure, and other social infrastructure affected by Tropical Storm Julia. The achievement of this objective will contribute to the general objective of supporting the transition process of the population affected by Tropical Storm Julia towards the recovery of their regular social and economic activities, through the restoration of the level of access to the provision of basic public services.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
