IADB-HO-00011

Improving the climate resilience of micro, small and medium forestry, and agroforestry enterprises in Honduras (FID)

---

## Project Description

This project aims to increase climate resilience and mitigation in the forestry and agroforestry sector with smart, sustainable, and cost-effective interventions that benefit MSMEs.

## Investment Description

- Inter-American Development Bank (IADB)

This investment/loan is classified by the bank as a container, which means it is part of another fund from the IDB Group to a parent project or another phase of the same project.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
