IADB-HO-T1255

Boosting the Competitiveness of Small Forest Producers and Communities in Honduras

Project Description

From the IDB: "The introduction of new business models based on integrated and diversified use of forest resources (timber and non-timber) to increase productivity and production quality. Assurance of environmental sustainability of forests through a clear system of incentives for the management and conservation of forest resources. Product certification, improvement of capacities of argoforestry cooperatives, access to finance and working capital for businesses."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
