Investment Amount (USD)	$ 0.50 million
Project Cost (USD)	$ 0.50 million

Project Description

IDB: PRIVATE FIRMS AND SME DEVELOPMENT-INTEGRATED REGIONAL/LOCAL ECONOMIC DEVELOPMENT
"The objective of this consultancy is to conduct an in-depth study of Honduras' current productive capacity to help identify areas with greater productive potential through the use of a Regional Spatial Strategy (RSS). The study should identify spatially operative productive structures, as well as the new economic activities of products, goods and services that are linked to the productive chains of greater value. This will allow us to discover the patterns and structures that organize the production of the territories, in order to sophisticate and add value to current economic activities and increase the productivity of resources."

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
