Investment Amount (USD)	$ 0.13 million
Project Cost (USD)	$ 0.13 million

Preparation of a Nationally Appropriate Mitigation Action (NAMA) for the use of Eco-Stoves

Project Description

According to the bank, the objective of the project is to support the preparation of a proposal for the National Appropriate Mitigation Action (NAMA) of Greenhouse Gases (GHG) based on the strengthening of a strategy for the use of efficient stoves in Honduras, while supporting the development of policies, laws, regulations, rules, standards and incentive plans that promote the development of technical capabilities that improve the integration of renewable energies in the energy sector.

Preparation of a Nationally Appropriate Mitigation Action (NAMA) for the use of Eco-Stoves

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
