Project Description

According to the Inter-American Development Bank, the objective of this project is to provide technical and operational suport for the implementation of the program of Improvement of Educational Quality for the development of skills for life and work for young people in the third cycle of education.

In particular, the project will carry out the following activities:

1. the development of a framework for good teaching to guide the initial and in service teacher training
2. the development of a pilot program to implement an adaptive mathematics platform
3. support the SEDUC in the preparation of technical specifications for the digital transformation process
4. provide operational support to the Secretariat of Education of the State of Honduras (SEDUC) in order to monitor the loan HO-L1188.

Investment Description

- Inter-American Development Bank (IADB)

Funds will come from the Bank's ordinary capital.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
