## **Project Description**

According to the bank, the project objective is to strengthen the integral management of the Lake Yojoa sub-basin based on technical and environmental studies, and agroforestry awareness and extension strategies, to contribute to the conservation of water resources and environmental conditions for the generation of hydroelectric power for the benefit of the population. Specific objectives: 1. Determination of the baseline through the development of technical studies: water balance, bathymetry, and water quality and sources of contamination; 2. Development of a Community Awareness Strategy Plan and Agroforestry Extension; 3. Comprehensive strengthening of the Watershed Management Unit of the ENEE generation company.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
