### **Project Description**

The objective of the Technical Cooperation is to strengthen the technical capacities of the entities that make up the third pillar of the ENIC of Honduras, through the exchange of knowledge with Argentine and Uruguayan institutions on the development and implementation of Fintech technologies. In the case of Argentina, we seek to know the experiences of the Argentine Chamber of Fintech, the Argentine Central Bank, the National Securities Commission, the Ministry of Finance, Nxtp. Labs, and Blockchain Argentina.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
