Supporting the Improvement of Social Digital Infrastructure Environment in Honduras

Project Description

To support the Honduras Public sector connectivity program. Particularly, these feasibility studies aim to support the planning by studying the best practice of Korean governments' policies, strategies, and technologies. With the indept study of the current existing network environment(policies, technologies, market) and the lessons learned from Korea, TC will propose a taylor made suggestion to the Honduras government.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
