Project Description

The objective of this technical cooperation is to contribute to conserving and recovering the natural and cultural capital of Ciudad Blanca. This will be achieved through the immediate development of integral management activities and the design of a sustainable mechanism for leveraging resources to finance these activities in the medium and long term. These actions are expected to contribute to the conservation of approximately 500 km² of tropical rainforest with ample biological, archaeological and social wealth.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
