ACCOUNTABILITY MECHANISM

The Independent Consultation and Investigation Mechanism (ICIM) is the independent complaint mechanism and investigation body for people who have been or may be negatively affected by an Inter-American Development Bank (IDB) or the Inter-American Investment Corporation (IIC) -financed project. If you file a complaint with the MICI, they may help you address the issues you raised through a dispute resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC are following their own policies to prevent or reduce harm to people or the environment. You can file a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mic, 1752.
