Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to strengthen the functioning of the cross-cutting systems for planning, monitoring, and evaluation (M&E) in Honduras and their linkage with the budgetary and public investment system, as well as to enhance institutional capacities for the implementation of priority digital government initiatives through the strengthening of the Honduran Digital Republic Agency (AGEHRED). The specific objectives are: (i) to strengthen the strategic systems of planning, monitoring, and evaluation, and their articulation with the budget and public investment system to increase effectiveness in achieving the government's priority objectives; and (ii) to improve capacities to consolidate institutional frameworks and implement the initiatives that comprise Honduras's digital government agenda through the strengthening of the Honduran Digital Republic Agency (AGEHRED).

MECANISMO DE RENDICIÓN DE CUENTAS DEL BID

El Mecanismo Independiente de Consulta e Investigación (MICI) es el mecanismo independiente de quejas y el órgano de investigación para las personas que han sido o podrían ser afectadas negativamente por un proyecto financiado por el Banco Interamericano de Desarrollo (BID) o la Corporación Interamericana de Inversiones (CII). Si presenta una queja ante el MICI, este puede ayudarle a abordar los problemas que planteó mediante un proceso de resolución de disputas con quienes implementan el proyecto o mediante una investigación para evaluar si el BID o la CII están siguiendo sus propias políticas para prevenir o mitigar daños a las personas o al medio ambiente. Puede presentar una queja enviando un correo electrónico a MICI@iadb.org. Puede obtener más información sobre el MICI y cómo presentar una queja en <http://www.iadb.org/en/mici/mici,1752.html> (en inglés) o <http://www.iadb.org/es/mici/mici,1752.html> (español).
