Project Cost (USD)	\$ 0.14 million

IADB-HO-T1486

Evaluating the Impact of Metropolitan Police Station Reforms on Crime in Honduras

Project Description

The objective of this Technical Cooperation (TC) is to support the Government of Honduras in strengthening evidence-based public policy and institutional capacity in the area of citizen security. Specifically, it aims to assess and inform the effectiveness of a policing reform implemented under IDB loan (HO-L1187) by evaluating whether the construction and upgrading of metropolitan police stations--alongside expanded personnel, specialized investigative units, and services for women victims of violence--reduce crime and gender-based violence in the targeted municipalities.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
