Voting Date	2025-12-01
Borrower	Gobierno de Honduras
Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.17 million
Project Cost (USD)	\$ 0.17 million

Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to ensure alignment with international quality standards in the development, construction, equipment, and commissioning of two specialty, trauma hospitals and one general hospital in Honduras, within the framework of the country's integrated health network model. In this context, the TC will support key activities under the Operation "Hospital Network Strengthening Program" (HO-L1239) and its modification. This modification aims to expand investments in the country's hospital sector, thereby strengthening the effectiveness and accessibility of specialized hospital services across multiple lines of care.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
