Project Description

The Technical Cooperation (TC) has a dual purpose. On the one hand, it seeks to support the Customs Directorate in implementing processes aimed at improving customs and logistics performance through operational and institutional strengthening. In doing so, it aims to contribute to: increasing the efficiency of customs revenue collection, facilitating foreign trade, and promoting the regional integration of Honduras. All of the above is aligned with the objectives of Loan 5694/BL-HO. On the other hand, the TC also contemplates support for the IHT in order to strengthen its capacities in investment and tourism promotion

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
