Project Description

The objectives and expected results of this project are: (i) reduced electricity consumption within government facilities; (ii) decreased fuel consumption through improved traffic control management; (iii) reduced GHG emissions which can contribute to Jamaica's INDC commitment; and (iv) an increased capacity to promote and supervise electricity planning in Jamaica.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
