## Project Description

The project aims to support the knowledge exchange between the JCF and the Colombian police. Specifically, the CT-Intra will support a visit to Colombia by selected staff of the Colombian Ministry of National Security and JCF, to learn about key aspects of Colombia's law enforcement, particularly: 1) Use of technology for law enforcement, particularly with a focus on Monitoring Centers; 2) Overall reform of the Colombian Police, particularly organizational, investigative, training and human resources management aspects; and 3) intersections between points 1 and 2, particularly as it relates to the reforms and change management necessary to ensure the effective and sustainable use of technology.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
