Project Description

The general objective of this TC is to provide support to the Government of Jamaica (GoJ) as it takes concrete steps to encourage early adoption of electric vehicles and promote renewable energy (RE) investments that reduce the cost of electricity and curtail carbon emissions in the transport sector. The specific objectives of this TC are to: (i) establish an Electromobility Strategic Framework for Jamaica , (ii) recommend a fiscal regime to support Electromobility, (iii) recommend appropriate standards, regulation and tariff structure for electric charging infrastructure infrastructure, (iv) provide inputs towards a National Emissions Policy, (v) provide recommendations for the electrification of public sector fleet , (vi) support training and communications, (vii) support Electromobility coordination with other donors and the private sector, and (viii) support international and regional dialogue and visibility of Jamaica's efforts on Electromobility and other energy and climate change initiatives

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
