Project Description

The objective of this TC is to support the Government of Jamaica (GOJ) in defining its long-term solution for solid waste management in Jamaica through the formulaton of plans required for the preparation of a viable business case for a public private partnership (PPP) for a reputable private investor to design, build, finance, maintain and operate the waste collection, transportation, recycling, treatment, and final disposal services for Jamaica. Specifically, the TC aims to assist the GOJ with the preparation of closure plans and designs for Riverton Disposal Site, preparation of studies to support the business case, and the re-orientation of the National Solid Waste Management Authority (NSWMA) to support the preparation of a viable business case for improvement of solid waste management in Jamaica.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
