Project Description

According to the IADB, the objective of the technical cooperation (TC) is to support the design of the organizational structure and the launch of services for the operation of the Spanish Town Hospital (STH) across its various facilities. The aim is to establish an integrated, efficient, and quality oriented service delivery model. To achieve this, the work will include: (i) defining the services to be provided in each facility; (ii) estimating the resources required for each service; and (iii) changing management process. This will be complemented by support for the development of a commissioning plan for the new infrastructure financed under the JA-L1049 Program.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
