Investment Amount (USD)	\$ 0.20 million
Project Cost (USD)	\$ 0.20 million

Project Description

According to the IADB, the objective of this TC is to strengthen the institutional capacity of the Forestry Department to plan, implement, and monitor climate-resilient strategies through the revision of the National Forest Management and Conservation Plan (NFMCP) (2027-2037), integrating robust adaptation and mitigation measures, climate-smart actions, sustainable financing, and results-based monitoring and evaluation. Equally, the TC seeks to create an inclusive and enabling environment for sustainable forest sector growth and development, fostering investment and innovation that align with national & international development goals, while safeguarding biodiversity and ecosystem services.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
