Project Description

This project aims to develop climate change adaptation and mitigation capacities in three Mexican cities through the preparation and implementation of projects that had been prioritized by the ICES action plans in the areas of energy, solid waste and water and sanitation.

Investment Description

- Inter-American Development Bank (IADB)

The expected cost of the project would be US$13,761,468, to be financed by the IADB and the Global Environmental Facility through investment grants.

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
