IADB-ME-G1019

Program to Support Nafin in the development of an Energy Efficiency
through Distributed Generation (DG) Program for MIPYMES

Quick Facts

Countries	Mexico
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Borrower	Government of Mexico
Sectors	Climate and Environment, Energy, Finance, Industry and Trade, Infrastructure
Investment Type(s)	Grant
Investment Amount (USD)	\$ 3.00 million
Project Cost (USD)	\$ 3.00 million

Project Description

The general objective of the IG is to contribute to increase the sustainability and efficiency of Mexico's MSMEs energy system by scaling up investment in distributed generation projects and contributing to the reduction in GHG emissions. The specific objective of this investment grant is to support NAFIN to develop a business line in connection with the introduction of PV distributed generation projects to MSMEs in the industrial, commercial and services sectors, as well as to address relevant institutional capacities

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
