Project Description

The general objective of this loan series is to boost productivity in Mexico. This IADB aims to achieve this through the following five specific objectives: (i) strengthen the institutional framework of the productivity agenda; (ii) improve the allocation of production factors through access to business financing; (iii) strengthen competition and the business climate; (iv) improve innovation and productive development; and (v) promote regional convergence in productivity.

Investment Description

- Inter-American Development Bank (IADB)

This programmatic policy-based loan operation is the second of two consecutive loans, technically linked to each other, but financed independently under the modality of programmatic loan to support policy reforms.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
