Energy Efficiency Program in Federal Government Public Buildings

Early Warning System

Energy Efficiency Program in Federal Government Public Buildings

IADB-ME-L1267

Quick Facts

Countries	Mexico
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	B
Borrower	Estados Unidos Mexicanos
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	$ 30.00 million
Project Cost (USD)	$ 33.00 million

Project Description

This project aims to achieve energy and economic savings in federal government public buildings, as well as to contribute to achieving greenhouse gas emission reduction. Specific objectives include: (i) to implement energy efficiency measures in IAPF; and (ii) to strengthen public institutions' institutional capacity on energy efficiency measures.

Investment Description

- Inter-American Development Bank (IADB)

The proposed IADB financing consists of a loan for US$30 million. The total project cost is US$33 million, of which US$3 million would be financed through country counterpart financing.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
