## Project Description

The objective of this programmatic series and the first operation is to improve fiscal management in federative entities and municipios, in order to strengthen their fiscal sustainability. This will be done by implementing a new financial discipline framework, increased transparency and accountability, and building institutional capacity in federative entities and municipios for implementing measures in these areas. This operation is the second in a programmatic policy-based loan (PBP) series, to be comprised of two contractually independent, but technically linked loans.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
