IADB-ME-L1305

Quick Facts

Countries	Mexico
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2020-01-28
Borrower	Government of Mexico
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	$ 50.00 million

Project Description

The Project is expected to achieve the following development results: (i) increased installed capacity of Non-Conventional Renewable Energy ("NCRE") and diversification of the energy matrix in Mexico with the addition of solar PV and wind power; (ii) displacing CO2 emissions from fossil fuel-powered plants; and (iii) promote solar NCRE technologies in Mexico by providing successful business case studies of the technology and the complementary benefits of solar PV and wind technologies.

Investment Description

- Inter-American Development Bank (IADB)

China Co-Financing Fund for Latin America

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
