Project Description

According to the Bank's website, the objective of the project is to facilitate the access of small and medium-sized clinics to technology and medical equipment, so that they can better serve their patients from vulnerable segments of the population. The purpose of the project is to offer small and medium-sized private clinics financing, via leasing, for the purchase of medical equipment and technology. The project will provide financing to Salud Facil, a non-bank entity that provides leasing services with a commercial strategy that has an important focus on clinics whose patients are from the medium and low socioeconomic level (C- and D). The equipment that clinics will be able to purchase includes ultrasound, X-ray, CT scanners, mammograms, and MRI equipment, which are used to diagnose and treat a wide variety of conditions and diseases, for diverse age and gender populations, including problems during pregnancy, cancers, cardiovascular and coronary diseases among others.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
