Project Description

According to the IADB, the objective of this programmatic series (hereinafter, the "Program") is to improve the quality of life of individuals who require and provide care, specifically by enhancing early childhood development outcomes, reducing dependency rates among older persons, and improving the economic conditions of caregivers, who are predominantly women. The specific objectives are to: (i) develop the institutional framework of the National and Progressive Care System (SNPC); (ii) strengthen the coordination and quality of care services for early childhood; (iii) strengthen the provision of services for the prevention of dependency among older persons; and (iv) strengthen caregiving skills and provide economic recognition for women's care work.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
