Project Description

The objective of this technical cooperation is to support the Ministry of Finance and Public Credit (SHCP) to enhance the redistributive impact of fiscal policy, by improving the quality and effectiveness of public spending as well as tax policy and administration. In terms of public spending, the aim is to identify improvements in the allocation of public spending, in order to achieve greater targeting in low-income sectors and regions. It will also seek to identify improvements related to the quality and effectiveness of social spending. In terms of tax policy and administration, we seek to identify areas of opportunity to increase the redistributive impact of taxation. For this, it will be consider alternatives for improving the design of taxation on income and wealth, as well as taxation on the collaborative economy.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
