IADB-ME-T1352

Support to the National Security Commission for the Strengthening of Security Management

#### **Project Description**

The objective of this technical cooperation is to help strengthen Mexico's police management at the federal level, by supporting: (i) modernization of training and police development processes; (li) improvement in the technical capacity for analysis of strategic information on crime and crime; and (iii) improvement in systems for collecting criminal information. These actions will allow the security agencies to improve their management in a coordinated way for decision-making and contribute to the formulation and implementation of public security policies with greater use of information.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
