

 Early Warning System

IADB-ME-T1366

Post-earthquake infrastructure immediate damage assessment

Quick Facts

Countries	Mexico
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Sectors	Humanitarian Response, Infrastructure, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.50 million

Project Description

From the IDB: This TC provides support to the Federal Government of Mexico to conduct a quick but detailed infrastructure assessment to evaluate its current vulnerability and extract lessons that will feed in an upcoming post-earthquake reconstruction plan and, if recommended by the results of the assessment, in updating the 1985 standards. The outcome of this TC is to ensure resilience of the public infrastructure and services in the country against future massive seismic events."

Investment Description

- Inter-American Development Bank (IADB)

Financed through the Japanese Special Fund; country counterpart contributes USD \$55,600.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
