Project Description

According to the Inter-American Development Bank, the objective of this project is to strengthen the fiduciary systems of the Ministry of Finance and the institutional capacities of the Federal Government of Mexico as well as sub-national governments to ensure proper implementation of the Fiscal Discipline Law of Federative Entities and Municipalities.

The project will be composed of three components to accomplish these goals:

1. the development and implementation of a computer module for the Alert System which will faciliate the collection and processing of the information required by the the System. It will allso help with the development and implementation of a platform for the elaboration of medium-term fiscal projections and analysis of debt sustainability
2. the training of sub-national government officials in the Fiscal Discipline Law of Federative Entities and Municipalities.
3. the generation of evidence on the effectiveness of the Fiscal Discipline Law of Federative Entities and Municipalities in order to develop recommendations to strengthen the current legislation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
