### **Project Description**

The objectives of this TC are to carry-out a diagnostic study of the quality of the provision of early childhood public care services in Mexico, by provider; and of the developmental level of the children who receive these services. This TC builds upon the study initiated by the technical cooperation ME-T1337, which measures the quality of the provision of early childhood public care services in Mexico, by increasing the total number of classrooms filmed and adding a measure of child development.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
