| **Project Cost (USD)** | $ 0.32 million |

## Project Description

The objectives of this project are: A) developing the specialized supply of housing financing for last mile, adapting it to the needs of millions of low income Mexican families with complementary non-mortgage financing for self-production, expansion and improvement, and B) bringing the value chain of the new last-mile housing closer to the leading architects like Tatiana Bilbao who listen to how families live and what preferences they have to offer new housing solutions that will generate identification of families with their homes, through personalization and expansion.

## Investment Description

- Inter-American Development Bank (IADB)

Spanish Fund for the Entrepreneurship

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
