Support to the Promotion of Actions of Energy Efficiency and Use of Renewable Energies in Mexico City

Support to the Promotion of Actions of Energy Efficiency and Use of Renewable Energies in Mexico City

Quick Facts

Countries	Mexico
Specific Location	Mexico City
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Borrower	Government of Mexico
Sectors	Climate and Environment, Energy, Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.15 million
Project Cost (USD)	$ 0.15 million

Support to the Promotion of Actions of Energy Efficiency and Use of Renewable Energies in Mexico City

Project Description

The objective of this TC is to support the Ministry of the Environment (SEDEMA) of the Government of Mexico City (GCDMX) in the implementation of its Sustainable Energy Strategy for Mexico City, so that it becomes a metropolis that systematically reduces its carbon footprint, by promoting photovoltaic systems and energy efficiency. In the current health crisis due to Covid-19, GCDMX officials reiterate their interest in this TC, which they consider a priority to support the economic recovery after the health crisis. The specific objectives are: (i) to develop the Measurement, Reporting and Verification (MRV) system, the Solar Home Pilot Program, which consists of installing photovoltaic systems for distributed generation among residential users; (ii) explore the potentials and feasibility of photovoltaic electricity generation projects in CDMX facilities; (iii) evaluate the possible ones and design an EE program in public buildings of the GCDMX; (iv) support the design and implementation of a program to replace high-consumption refrigerators for residential use with efficient refrigerators; and (v) strengthen capacities to evaluate and promote the development of renewable energy (RE) and energy efficiency actions.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
