## Project Description

The objective of this TC is to identify the gaps, in terms of skills and knowledge, between the demand of the productive sectors and the supply of technical training in Mexico. It also seeks to evaluate the effectiveness of a new youth participation model with flexible schemes to complete the courses with the use of new communication and information technologies and adapted to the Latin American context. The Tecnológico de Monterrey will develop the technical content of these courses to innovate in the preparation of young people and based on the demand of companies in different industries

## Investment Description

- Inter-American Development Bank (IADB)

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
