| Project Cost (USD) | \$ 1.25 million |

Project Description

According to the Bank's website, the objective of this technical cooperation is to develop several different studies about low carbon sustainable infrastructure to achieve a strong, green and inclusive economic recovery in the transport sector. Additionally, it will provide a pathway for Mexico's economic growth and a transition to a Net Zero economy while closing the gap in public services.

Investment Description

- Inter-American Development Bank (IADB)

No contact information provided at the time of the disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
